ABOUT BLINDSAVE

BLINDSAVE is innovative sports protective gear manufacturer in Europe. Our product technology and material can be used in many sports due to easily adjustable shape & thickness of the protector (basketball, football, handball, extreme sports, rugby and others). We believe we can help thousands of athletes across the world to stay safe, avoid injuries and achieve their full potential.

WHAT MAKES US DIFFERENT?

- ◆ **Self - adjusting to body.** We have created world's first protective gear that adjusts itself to a player's body, ensuring superior protection and comfort. As the padding gets in touch with your body, it takes less than a minute to become softer, more flexible and wrap around your body.
- ◆ **Shock absorbing.** BLINDSAVE padding absorbs shock more effectively than other brands on the market, despite using 40% thinner padding.
- ◆ **Incredibly high level of comfort.** BLINDSAVE uses ergonomic and spherical shape padding to provide the perfect fit on body.
- ◆ **Thin & light.** The padding is only 0.08 to 0.29 In (2 - 7.5 mm) thin. It's very flexible and light, allowing the best freedom in movements.
- ◆ **Durable.** Because our paddings are coated in polyurethane membrane, it provides longer life to our equipment.

HOW DOES THE SELF ADJUSTING PROTECTION WORK?

The highest functionality of the protective material is achieved at 36.6° - 37°C (97.7° - 98.6° F) - it's human body temperature.

BODY ADJUST TECHNOLOGY

The main advantage of our products are their unique patent-pending body adjust technology (BAT) which ensures superior protection and comfort to athletes.

THE IMPACT TEST OF BLINDSAVE

Padded basketball wear shows that padding absorbs a 1760 pounds (800 kg) hit. Test setup was prepared according to EN 1621-1 method.

**76,6% of injuries
basketball players get
after contact with
other players**

**Using right protection
can help to avoid injuries**

PADDED COMPRESSION WEAR

Through the use of unique shock absorbing materials ranging from 0.08 to 0.29 In (2 - 7.5 mm) in thickness, we can offer extremely high level of comfort.

Paddings are coated in polyurethane membrane and attached on the compression wear, making the protective gear highly durable.

BLINDSAVE protective gear is designed to protect key areas from hits and falls: elbows, ribs, knees, hips, thighs and tailbone.

Unique patent-pending body adjust technology (BAT) ensures superior protection and comfort to athletes.

We use very thin and lightweight fabric - Revolutionary™. It absorbs sweat and allows its natural evaporation, removing the unpleasant wet sensation on the skin, avoiding irritating rubbing. The fabric elasticity moulds to the body without be constricting, allowing the best freedom in movements and guarantee a high muscular support.

Alexander Petersson
Rhein-Neckar Löwen, Germany

"BLINDSAVE padded compression wear is very comfortable and durable. The paddings are very light and thin, but they can absorb big hits and falls what's very important for me as a handball player."

Dairis Bertans
Milan EA7 Emporio Armani (Italy), Euroleague

"My first experience with protection gear wasn't successful because I felt like ice-hockey player with huge and heavy body armor. But I changed my mind when I tried out BLINDSAVE protection gear. It's very light, flexible and comfortable."

Amanda Zahui B.
New York Liberty, WNBA

"I am using padded compression wear to keep my body solid and protect from hits and falls. I think it is very important since basketball is very physical contact sport, a lot of bodies are being thrown around, so to save ourselves from bad hits we should protect us with protective gear."

Davis Bertans
San Antonio "Spurs", NBA

"I did not use protective gear before because it made me feel big and uncomfortable. Everything changed when I tried out BLINDSAVE protective gear. It was so comfortable I didn't feel that I had any protectors on me."

Janis Strelnieks
Olympiacos (Greece), Euroleague

"I'm using BLINDSAVE protection gear because it feels like I'm not wearing any padding at all."

*We give you protection, so
you can give your best!*
